1. **Protection for Unborn Children** – *Roe-v-Wade, Doe-v-Bolton, and Planned Parenthood-v-Casey have been ruled to authorize abortion throughout all nine months of pregnancy, the explicit “health” exception in Doe which is still applicable to US abortion law, states that it is entirely up to the physicians opinion and that sociological and psychological factors including familial and generic ‘well-being’ are to be determinative. This licenses doctors to do whatever they wish. (Doe v. Bolton, 410 US 179) [Hear Justice Ginsberg’s analysis here.](#)*

Do you agree with this interpretation on abortion? **Please check one.**

- No restrictions on abortion for all nine months (Planned Parenthood’s position)
- No restrictions prior to viability, then abortion should be disallowed
- Abortion should be allowed only to prevent the death of the mother, in cases of incest, and in cases of forcible rape reported to law enforcement authorities within seven days.
- Abortion should be allowed only to prevent death of the mother (CPLC position)
- Abortion should be disallowed in all cases
